

I am writing to strongly encourage the FCC to limit the ability of media conglomerates to own all media outlets in one city or community. I highly value locally owned media stations- and actually avoid all corporate stations. I want to listen to local news, music, commentary, and coverage. I don't want a large company determining my media coverage from a distant location. Please restrict the ability of large corporate media ownership. Keep media ownership local and diverse, which will ensure higher quality broadcasting. Thank you.
